

LISA MEANS

JEFFREY WHITMAN, M.D.

LASIK/Crystalens[®], ReSTOR[®], Tecnis[®], and Comprehensive Adult Eye Care

Under the direction of president and chief surgeon Jeffrey Whitman, M.D., the Key-Whitman Eye Center has been recognized as a leading eye-care facility for nearly 50 years. A full range of progressive ophthalmic services are offered by a group of highly experienced ophthalmologists, board certified by the American Board of Ophthalmology. Using a combination of all-laser, blade-free Intralase[®], and the Allegretto[®] Wavelight[®] technology, the Key-Whitman team has improved the precision and predictability of LASIK surgery. Dr. Whitman is one of the nation's leaders in the implantation of refractive intraocular lenses including Crystalens[®], ReSTOR[®], and Tecnis Multifocal[®] which provide a full range of vision for close-up, far-away, and everything in between without having to wear glasses and contacts all of the time. Treatments for cataracts, glaucoma, eyelid disorders, and cornea disease as well as routine eye care are offered by the center.

Dr. Whitman, a recipient of the American Medical Association Physician's Recognition Award, is the immediate past president of the American College of Eye Surgeons and has been recognized by *D Magazine's* Best Doctors peer review as one of Dallas' Best for nine years in a row.

Education

*M.D. and Internship, UT Southwestern Medical School;
Residency, Scott and White Clinic
B.S., Southern Methodist University*
